# STEPS TO MAKE A GITHUB ACCOUNT

1. **Go to GitHub:** Open your web browser and navigate to [GitHub's website](#).
2. **Sign Up:** On the GitHub homepage, you'll see a "Sign Up" option at the top right corner. Click on it.
3. **Enter Your Information:**
  - **Username:** Choose a username that will be your unique identifier on GitHub. If your desired username is already taken, GitHub will prompt you to choose a different one.
  - **Email Address:** Enter your email address. This will be used for account-related notifications and communication from GitHub.
  - **Password:** Choose a strong password to secure your account.
4. **Verify Your Account:**
  - GitHub will send a verification email to the email address you provided.
  - Check your email inbox for the verification email from GitHub.
  - Click on the verification link in the email to confirm your email address.
5. **Set Up Your Profile:**
  - Once signed up, you can customize your profile by adding a profile picture, bio, and other details. This helps others identify you and learn about your interests.
